■ Admission policy

(1) Mission Statement of Akita International University

With its innovative international liberal arts educational philosophy, Akita International University aspires to prepare students to be leaders in global society. International Liberal Arts education at AIU enables students to acquire a broad scope of knowledge and sharpens their analytical thinking skills; it helps them gain insight into the critical issues confronting the world and develops in them a global outlook, as it equips them with the ability to communicate effectively in English and other languages.

(2) Characteristics of Akita International University

- From the perspective of an emphasis on education, we widely recruit faculty members with enthusiasm and capability for education from all over the world, regardless of nationality, age, or gender; All classes are conducted in English by the professors about half of whom are foreigners.
- In order to acquire international vision and sense through cross-cultural experience, our students are obliged to study abroad for one year.
In conjunction with this, a cosmopolitan educational environment and campus life is offered where foreign students gather from across the globe.
- As a university open to the world based on constant exchanges with the cross-cultural community, we deepen cooperation with universities/colleges around the world including 200 partner universities/colleges in 51 countries/regions (as of October, 2022).
- As a select few, our students are provided a whole person education by, for example, everyone being obliged to live in a dormitory for at least one year after admission.
- Akita International University is an ambitious university that gives the highest priority to educational power based on application of not only fixed-term system but also tenure system.

(3) Akita International University Future Students

At Akita International University, we want students who share our philosophy: Successful applicants should be equipped with:

- Balanced basic academic competencies across the broad fields of the humanities, the natural and social sciences, as well as logical, critical and creative thinking skills and outstanding ability or experience in specific areas that they are enthusiastic about further developing within the scope of their learning
- Strong interest and an inquiring mind toward global affairs including the nature of diverse cultures, languages, history and societies of the world based on their experiences in having studied abroad or participated in various international activities in and out of their countries
- Strong desire to gain practical skills of foreign languages (especially English) and knowledge from a broad range of liberal-arts subjects.
